

## Preferred Catering List

National Cable & Telecommunications Association (NCTA) provides caterers with access to its kitchen located on the 1<sup>st</sup> floor with loading dock access in rear of the building. The kitchen area includes refrigeration, microwave, ice machine, sink and ample counter space. We require any contracted caterer to carry a minimum of \$1 million in General Liability Insurance. Contractors must provide a Certificate of Insurance as evidence of coverage and NCTA is to be named additionally insured. If alcohol is being served, host liquor liability coverage is also required.

The following list includes caterers that are familiar with our facility and meet NCTA's insurance coverage requirements. This is not an exclusive list; companies may contract with other caterers.
